

Simpson Associates RedactXpert

AI-powered document auto-redaction using Microsoft's Azure Cognitive Services – improving accuracy, efficiency and speed of redacting Personally Identifiable Information (PII) within documents.

What is RedactXpert?

In today's data-driven world, safeguarding sensitive information is more critical than ever.

Many types of organisations face the common challenge of needing to redact vast numbers of documents to remove Personally Identifiable Information (PII).

Simpson Associates and Microsoft have worked together to develop "RedactXpert". This tool assists in the process of redacting documents using AI, delivering improved efficiency and considerable time-saving benefits.

RedactXpert stands unrivaled as the only automated redaction tool that is built on the Microsoft Azure platform and is enhanced by using Microsoft's Cognitive Services. RedactXpert identifies and redacts Personally Identifiable Information (PII) with the power of AI.

Benefits of using Simpson Associates RedactXpert:
